Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

The example shows a sequence of five colored cards with sticky notes, each representing a part of the problem statement template:

- I am** (Icon: Person): A student or researcher.
- I'm trying to** (Icon: Target): Understand and compare the Human Development Index (HDI) of different countries.
- But** (Icon: Warning Triangle): It is difficult to analyze multiple development indicators together.
- Because** (Icon: Lightbulb): The data is spread across different sources and is complex.
- Which makes me feel** (Icon: Sad Face): Confused while comparing countries.
